Alx africa

May, 2024 - July, 2024

- Completed an 8-week program focused on AI-augmented professional development, digital productivity, workplace readiness, communication, and problem-solving in the digital age.

RECOMMENDATIONS +

Ababio Wiafe

10 "Innovative and very determined individual."

Adjoa Sarpong

10 "Kobby is a highly driven cybersecurity enthusiast with strong hands-on skills in VAPT, OSINT, and tools like Kali Linux and Nmap. His Python/Django and DeFi projects show real technical depth, and his leadership in youth-focused and Web3 communities demonstrates integrity and a genuine commitment to safer, more inclusive digital spaces."
